Hi Jodi,

Please see the attached Engineering Report for the Bidleman Ford field return.

If you have any questions, please let me know.

Thanks,

David Gould

Hi Jodi,

I'll get my report written today. Then it needs to go past my supervisor for approval/edit. So it will be either today or tomorrow.

Sorry about the delay.

Regards,

David Gould

Good morning David,

I have not seen a final report on this. Do you have a new target date?
Thanks!

Hi Jodi,

Adding Salvatore Calafiore.

I'm expecting our Lab's report in a day or two. Then I'll need to create my Engineering report. If it all comes together right, I'm expecting total completion by the end of this week.

Regards,

David Gould

Team,

Any update on the part analysis for these valves?

Thanks,

Jodi Birr

Thanks Bryan –

Typically those are evaluated at Marshall. I have reached out to David Gould but he is out of office. I might take a look at them but since they were in an engine I may be sending them to Marshall for evaluation.

Thanks

Hello Ron. Sorry, I forgot to reach out you regarding this. These were returned for a bent valve condition. Please have your team evaluate and send your findings to Jodi and myself.

Thanks!

Bryan

Greetings Bryan –

I received a package today and I was trying to match up an email to the issue. Looks like these are parts from an engine teardown labeled as from Bidleman Ford.

Can you help shed some light on what the issue was/is?

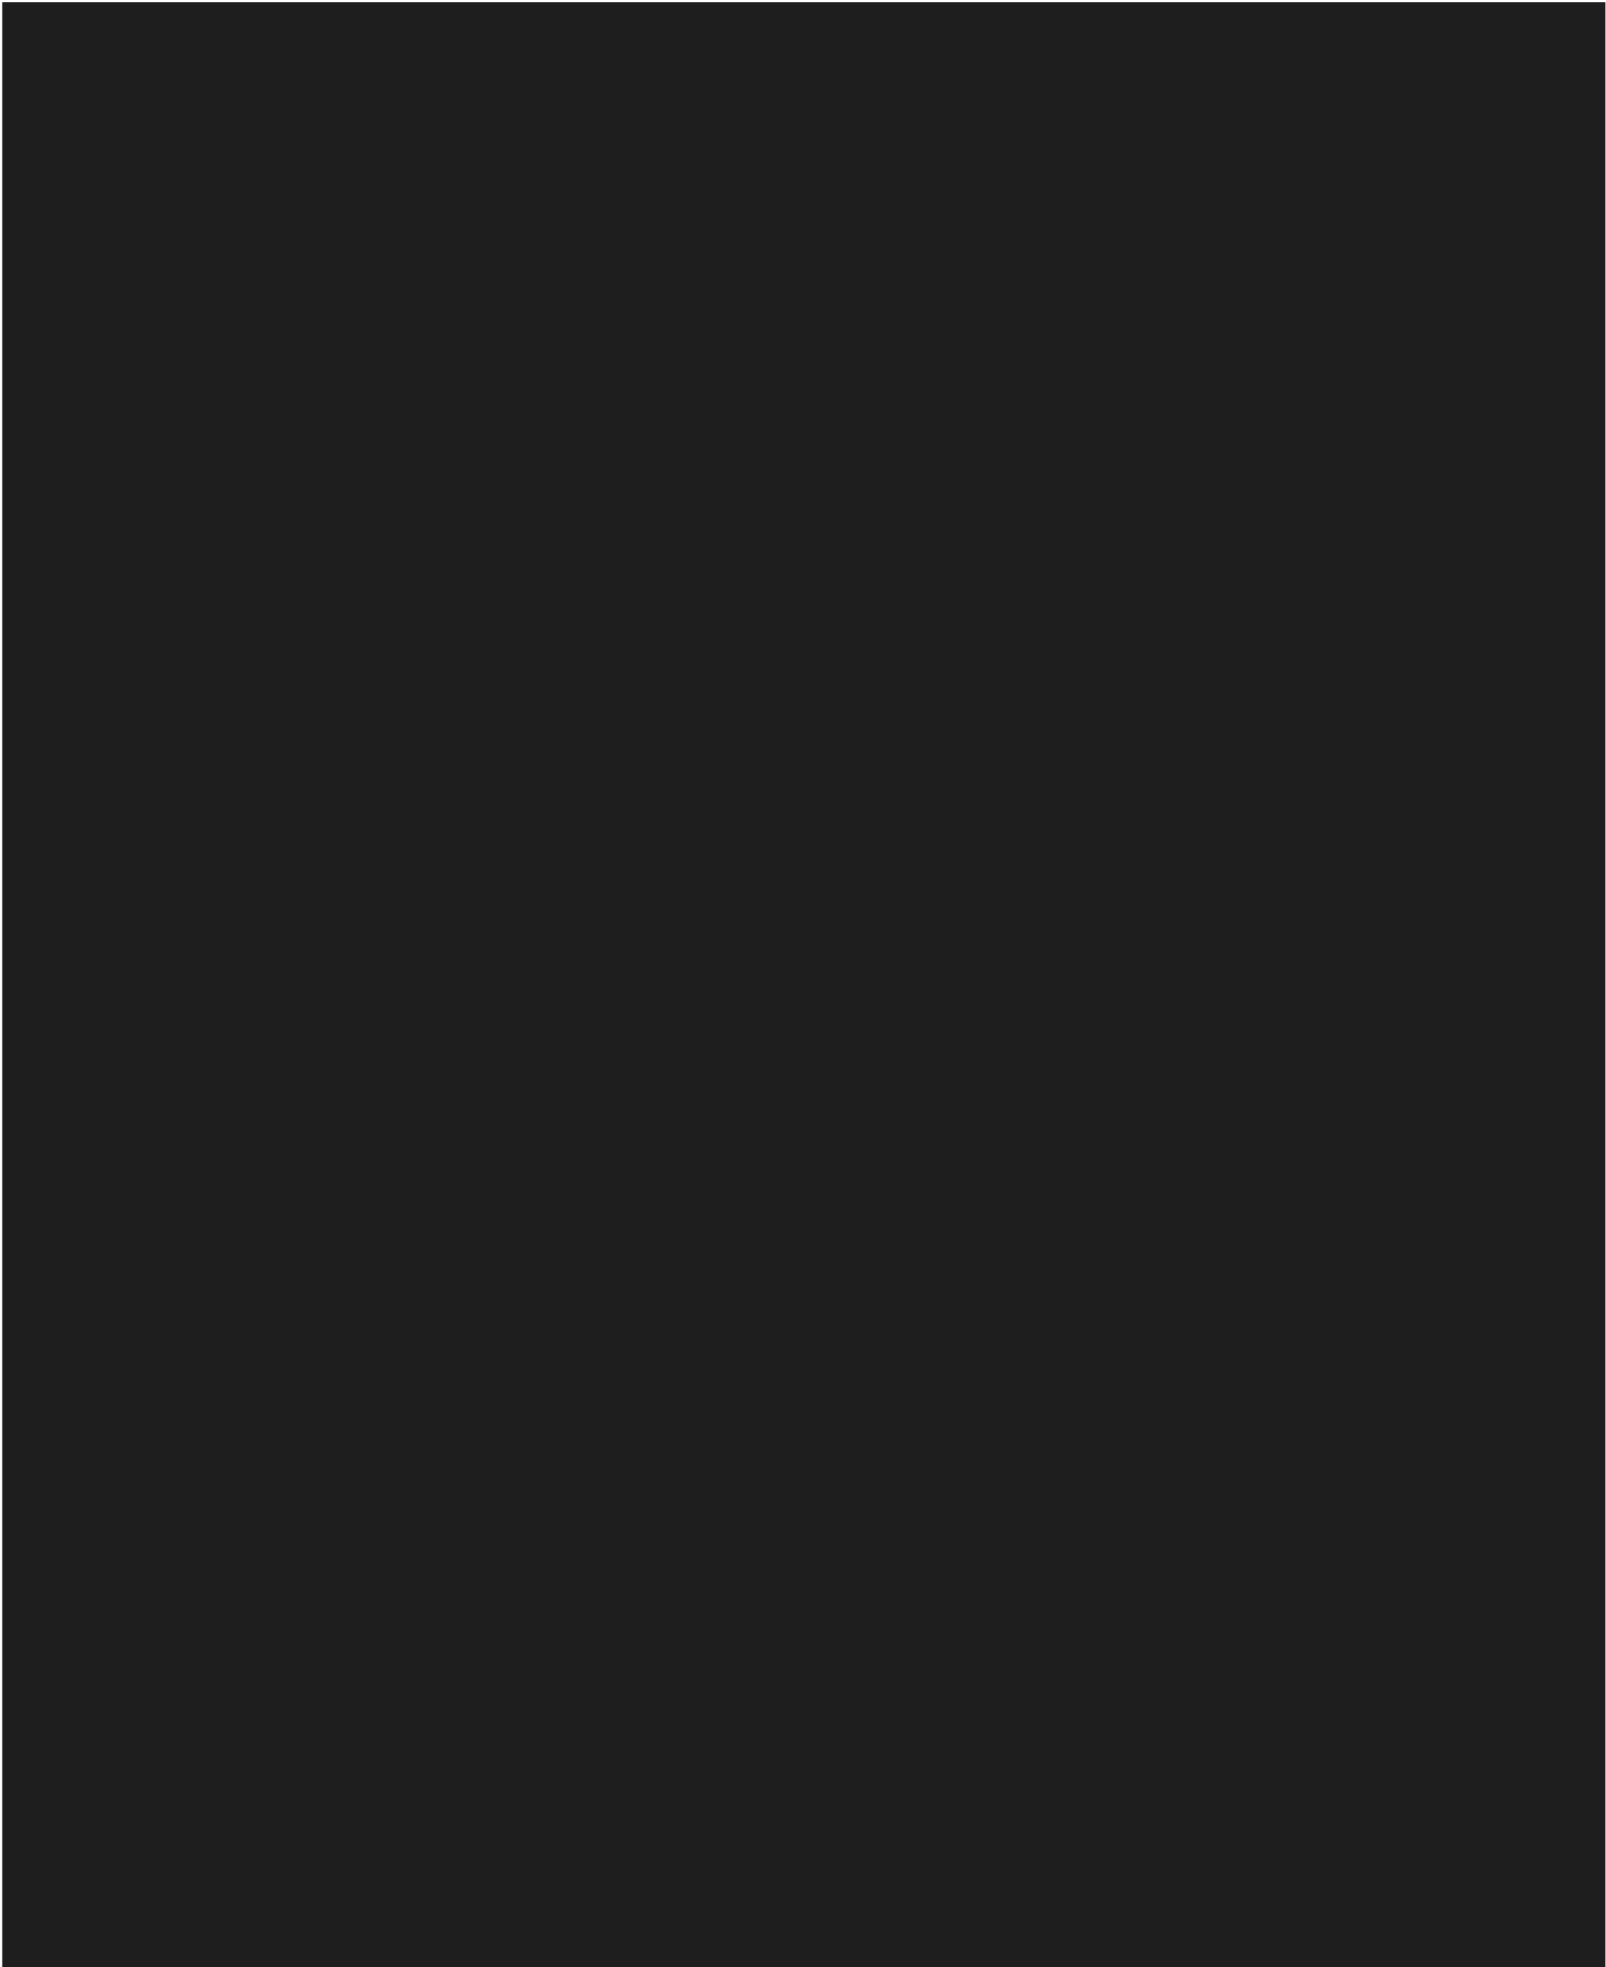

Thanks
