Text Body Leonard,

TECH LINE's latest case update is below.

Recommendation:

Thank you for your time on the phone today, Leonard.

Per our discussion, let's watch the crankshaft pulley for wobbling with the engine cranking or running; this would indicate trauma to the crankshaft.

Let's also inspect the crankshaft position sensor and connector for trauma.

If wobbling is observed then let's remove the oil pan to confirm metal debris is present and if so, replace the long engine.

Let us know if additional assistance is needed and we will be happy to help.

The TECH LINE Survey can be accessed by: [CLICKING HERE](#)

Thank you,

Erich Shuman

TECH LINE

Updating a TECH LINE Case:

Technician: Reply to this email; do not change the email subject line. Email file attachments are limited to 6MB.

From ASIST, Select TECH LINE Support Request, Enter your dealer code and select Update a Case.

If no response, we will assume additional assistance is not required and the case will be closed. Closed TECH LINE cases can be reopened.
