Dustin Scheuch,  
TECH LINE's latest case update is below.  
Recommendation:  
  
Thank you for the update and video attachments.  
  
-Please remove the oil pan and inspect for debris.  
-If debris is found, replace the long block, as well as both turbochargers.  
-If no debris is found, replace the long block.  
  
-Let's still test our batteries and address as needed.

Dustin Scheuch,  
TECH LINE's latest case update is below.  
Recommendation:

Good morning Dustin, and thank you for contacting TECH LINE.

We see that you are looking at a engine quit concern, and have found the batteries to be weak.

-There are no trending, known, or common concerns similar to this that TECH LINE is aware of for this model year.

-Please replace the batteries if testing indicates to do so.

-Recharging the batteries if testing indicates to do so, then retest.

-Gather additional information from the customer about the concern, vehicle history, battery history, and vehicle usage/driving habits.

-If this is a repeat occurrence, perform a parasitic draw test.

Please feel free to reach back out if further assistance is needed.
