As per [REDACTED] all documents and related files need to be transmitted to Local Counsel for handling. No BRC LEGAL > Acknowledgment activities or case assessment are required. In addition all available sales & service history (repair orders) from the involved dealerships needs to be requested and included in the removal packet. The removal will need to be completed within 5 business days of assignment, and both Local Counsel and the Legal Coordinator notified if unable to meet this timeframe. Thank you.

Dear Jason ,

This email is being sent to notify you of a NISM in your region. The Technical Assistance Center has been involved [REDACTED] Due to time constraints, a response to this e-mail is required within 48 hours.

This is a Not in Suit Matter. A demand letter has been sent to our office by the customer's attorney indicating that the customer may pursue a lawsuit unless GM can resolve the customer's vehicle concern. We are reviewing this case for possible settlement in our Early Resolution program. The settlements offers can range from denial up to repurchase, depending on the severity of the concerns. Because of this, we would like you to review the following options:

A) I have information on this case that may assist in your review (please provide in your reply).

B) I am not aware of this vehicle or customer's concerns.

It is important that whichever selection is made, you should not communicate directly with the customer as we are required to work through their attorney.

Please reply by email with one of the above options within 48 hours. If a response is not received within 48 hours, the default option will be "B". Your written feedback will be documented and the email will be attached to our case as an important step in our timely case resolution.

Thank you!

DiJon Hopki...
