Good Morning

I am emailing you in regards to customer [REDACTED] and her 2017 Chevrolet Volt. I was advised (per cem) that the vehicle would be repaired today . Customer states that no one has contacted her from the dealership with an update. If someone can contact her with the status of her vehicle that would be great. Customer seeking reimbursement for out of pocket rental expense. Customers repairs were under warranty, we can process the reimbursement here on our end. Please advise if you have any objections in reimbursing the customer.
