DESCRIPTION OF SERVICE AND PARTS	AMOUNT
<p>equipped with light bars, cargo racks or similar. Use cruise control when appropriate for smoother applications of torque. Plan ahead for decelerations. For example, do not rush to red traffic signals and suddenly brake. Do not shift to neutral (N) while braking. The vehicle recovers energy while coasting and braking in Drive (D) or Low (L). Use Low (L) and/or Regen On Demand Paddles {if equipped}. These help reclaim maximum energy automatically, requiring less brake pedal application while providing a controlled efficient way to slow the vehicle down. There is no added wear on the vehicle to use these features. Use Normal Mode {Tour Mode in Cadillac ELR} when possible. Sport Mode provides more responsive acceleration but lowers efficiency.</p>
