**Answer**

Records identified in a search of the GSAR and Concern Driven Reporting (CDR) databases, as described in Ford's response to Request 6, were reviewed for relevance and sorted in accordance with the categories described in the response to Request 2. The number and copies of relevant warranty claims identified in this search that may relate to the alleged defect in a subject vehicle are provided below in Figure 2 and provided in the file "EA23-002 Request 5 – Warranty Data" respectively. The categorization of each report is identified in the "Category" field.

Category	Warranty Claims (GSAR)
A	351
B1	107
B2	61
B3	185
C	120
D	0
Total	824
Unique VINS	818

When Ford was able to identify that duplicate claims for an alleged incident were received, each of these duplicate claims was marked accordingly and the group counted as one report. In other cases, certain vehicles may have experienced more than one incident and have more than one claim associated with their VINs. These claims have been counted separately.

Requests for "goodwill, field, or zone adjustments" received by Ford to date that relate to the alleged defect that were not honored, if any, would be included in the GCCT reports identified above in response to Request 2. Such claims that were honored are included in the warranty data provided. Ford assumes that providing the warranty claims in the electronic database format meets the requirements of this request as the agency can review or order the claims as desired.
