Re: PE23-020; Complete Response

Dear Mr. York,

Enclosed is the non-confidential copy of Nissan's complete response to the referenced NHTSA Information Request of January 26, 2024, concerning the Agency's investigation of allegations involving crankshaft, bearings, and bearing caps equipped in the Cummins 5.0L V8 diesel engine installed in the subject vehicles. Nissan has submitted its complete response to Office of Chief Counsel with a request for confidential treatment of certain information in accordance with 40 CFR Part 512.

By email dated March 8, 2024, NHTSA granted an extension of time through March 25, 2024, for Nissan to respond to certain requests that require additional analysis. On March 11, 2024, Nissan submitted responses to Request 1 – 9, which have been repeated in this complete response for ease of reference.

The attached reply responds by first stating each question, then the response. Please contact us if you have any questions.

Sincerely,

A solid black rectangular box redacting the signature of Wilbert Swindell.
