Re: Request for Confidential Treatment of Information Pertaining to PE23-021

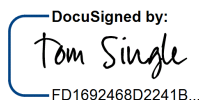

As explained in Ford's February 26, 2024, Request for Confidentiality pertaining to PE23-021, Ford was unable to provide two supplier certificates in support of a request for confidential treatment of certain documents provided in that response. Ford had not yet received those supplier certificates at the time of the February 26th submission.

The signed certificate from the supplier, ZF, has since been received, and is provided as Attachment 4. Ford is requesting confidential treatment of the documents contained in 'PE23-021 Part 2 Confidential Submission' folder, the basis of which was provided in Ford's February 26, 2024, request.

The second supplier, Veoneer, is not seeking confidentiality for their documents. Hence, the Veoneer documentation has been updated and is included in the non-confidential submission folder for Response 13. The files in the confidential submission folder are also updated to reflect this change.

We apologize for the inconvenience. If you have any questions concerning this response, please feel free to contact me.

Sincerely,
