Defect Petition DP24-003

Dear: Kathryn Cochrane

This letter concerns your April 1st, 2024 petition sent to the National Highway Traffic Safety Administration ('NHTSA' or 'the Agency'). Your letter requested that NHTSA open a defect investigation into the car seat harness malfunctioning and not properly restraining its occupant on the Nuna car seats including the Rava, Revv, and Exec child seat.

Based on its review of the applicable material, ODI has decided to grant the petition and open PE24-026 to investigate potential safety-related defects pertaining to the harness malfunctioning and not properly restraining its occupant, on Nuna child seats. A copy of the Opening Resume for PE24-026 is attached for reference and further information.

Sincerely,

Tanya Topka
