Defect Petition DP24-003

Dear: Kelly Hartmann

This letter concerns your March 21st, 2024 petition sent to the National Highway Traffic Safety Administration ('NHTSA' or 'the Agency'). Your letter requested that NHTSA open a defect investigation into the car seat harness can be loosened without pressing on the harness release button, on the Nuna Rava child seat.

Based on its review of the applicable material, ODI has decided to grant the petition and open PE24-026 to investigate potential safety-related defects pertaining to [the harness potentially coming loose without the harness release button being pressed, on the Nuna Rava child seats. A copy of the Opening Resume for PE24-026 is attached for reference and further information.

Sincerely,

Tanya Topka
