Hi Bruce,
I've called the number listed on the information request and I'm not sure who I'm leaving a message with, but I did leave a message requesting an extension for completion of the information request. I'm requesting an additional 2 weeks for this submission, which would place the due date on or before June 21, 2024.
Please let me know if this is acceptable. Thank you.

Steve Gerhart

Subject: [EXTERNAL] Defect Petition

You don't often get email from bruce.york@dot.gov. Learn why this is important

Good Afternoon Mr. Gerhart,

This office has received a defect petition alleging that NUNA RAVA Child seats contain a defect that may result in the harness straps coming loose without the harness release button being pressed. The petitioner alleges the car seat harness can be loosened completely without pressing on the harness

release button and that the harness would not be able to restrain a child in case of a crash.

I have attached a copy of an Information Request letter related to the DP.

Thank You,

Bruce York
