Narrative

Provide a written description of the pre-crash, crash, and post-crash details, including the direction(s) of travel, if known. Provide explanations for any responses indicating see Narrative. List all ADAS or ADS features engaged prior to the incident, describe any ADAS or ADS feature disengagements leading up to the incident, and provide reasons for the disengagements, if known. Indicate if this is an update to a previously submitted report and, if so, provide the previous report's REPORT ID. If you selected Media as a source in the Incident Information section, provide the URL or reference. Provide any other available information.

NARRATIVE

☐ CBI

A Zoox vehicle (Vehicle 1) in autonomy was stopped at a red light in the right travel lane on [REDACTED] at the intersection with [REDACTED] in San Francisco. After the light turned green, the Zoox vehicle entered the intersection and began bearing right onto [REDACTED] when a lane splitting motorcycle (Vehicle 2) operator maneuvered around other traffic and quickly came up on the rear of the Zoox vehicle, traversing laterally in lane from the left to the right side of the Zoox vehicle. The Zoox vehicle braked and then the Zoox vehicle operator disengaged. The motorcycle then struck the passenger's side of the rear bumper and quarter panel on the Zoox vehicle and the motorcycle and its operator fell to the ground. The motorcycle operator appeared to have scraped his hands, but declined medical attention. The motorcycle sustained minor damage to the fairing, left side mirror, and front and rear left turn signal lens and the Zoox vehicle did not sustain damage. The motorcycle operator left the scene without exchanging their information. The police were not called.

The content of this report is unchanged from the initial report and provides complete information to date for this incident.

PAPERWORK REDUCTION ACT STATEMENT: A federal agency may not conduct or sponsor, and a person is not required to respond to, nor shall a person be subject to a penalty for failure to comply with, a collection of information subject to the requirements of the Paperwork Reduction Act unless that collection of information displays a current valid OMB Control Number. NHTSA estimates that completing and submitting this form will take between 15 minutes and 2 hours. The OMB Control Number for this information collection is 2127-0754. Expires: 3/31/2026. This information collection and Standing General Order 2021-01 requires manufacturers and operators of vehicles equipped with ADS or Level 2 ADAS to report certain crashes to NHTSA. The data will help the agency understand the extent to which incidents are potentially a result of safety defects, including whether manufacturers have failed to appropriately design their systems based on their foreseeable misuse.
