Nate and Josh,

I spoke to Jack this afternoon about DP24004. We will go into the queue line once NCC completes review but there is a huge backlog for the Federal Register right now. I did ask if we can notify the petitioner and close in Artemis and trail the FRN until that pipeline opens up and was told no. I will put a note in the investigation to this affect but it appears all we can do at this point is make sure NCC has everything and keep pinging them every couple of days to move it along so at least it can get signed and sent over. Sorry for the bad news on this one.
