

A close-up photograph of a vehicle's rear quarter panel and tire. The upper portion of the image shows a dark, glossy, metallic surface, likely the rear fender or quarter panel, which is highly reflective and shows some light streaks. Below this, a horizontal metal bar or bumper component is visible, showing some wear and a small, indistinct mark. To the right, a large, black tire with a prominent tread pattern is visible. The overall lighting is somewhat dim, with highlights on the metallic surfaces.
