

## FORD MOTOR COMPANY (FORD) RESPONSE TO PE24-002

Request 13

State the number of each of the following that Ford has sold that may be used in the subject vehicles by component name, part number (both service and engineering/production), model and model year of the vehicle in which it is used and month/year of sale (including the cut-off date for sales, if applicable):

- a. Subject component.
- b. Any kits that have been released, or developed, by Ford for use in service repairs to the subject component/assembly.

For each component part number, provide the supplier's name, address, and appropriate point of contact (name, title, and telephone number). Also identify by make, model and model year, any other vehicles of which Ford is aware that contain the identical component, whether installed in production or in service, and state the applicable dates of production or service usage.

Answer

Ford service parts are sold in the U.S. to authorized Ford and Lincoln dealers. Ford has no means to determine how many of the parts were installed on vehicles, the vehicle model or model year on which a particular part was installed, the reason for any given installation, or the purchaser's intended use of the components sold.

Ford is providing the total number of Ford service subject components for subject vehicles up to February 8, 2024. Based on conversations with NHTSA, Ford understands that the service sales data is for subject vehicles only. The following information on part name, part number, year of sale, where available, and supplier point of contact information is included in the file titled "PE24-002 Part 2\_Request 13\_SoldParts."

There were no technical service bulletins related to this subject component. There were no service kits developed for any of the subject components.
