Ford BlueCruise hands-free highway driving

helps make driving less stressful
and more enjoyable.

How to use available Ford BlueCruise:

One-time setup:

- **Download the FordPass® App** and add your VIN
- **Activate your FordPass Connect modem** on your vehicle's center screen
- **Turn on Lane Centering with Hands-Free**, Select settings icon > Driver Assistance > Adaptive Cruise Control > Lane Centering with Hands-Free

How to use it on the road:

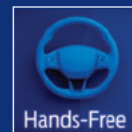

- Make sure Lane Keeping is ON. If this icon does not appear on your instrument cluster, press the lateral support button on your steering wheel to turn it on
- **Select the Adaptive Cruise Control button** on your steering wheel
- Your **Instrument panel will turn blue** and the hands-free icon will appear when you enter a hands-free Blue Zone
- **Drive hands-free** with your eyes on the road

Hands-Free

Available feature. Ford BlueCruise requires a Connected Service plan, FordPass® App and modem activation. Equipped Ford vehicles come with either a 90-day trial or a three-year BlueCruise Connected Service plan, after which purchase is required. See ford.com/bluecruise for more details. BlueCruise driver-assist features are supplemental and do not replace safe driving or driver's attention, judgment and need to control the vehicle. Only remove hands in a hands-free Blue Zone. Always watch the road and be prepared to resume control. See Owner's Manual for details and limitations.

Ford BlueCruise hands-free highway driving

helps make driving less stressful
and more enjoyable.

Available Ford BlueCruise operates on
97% of controlled access highways
in areas called hands-free Blue Zones
across the U.S. and Canada.

It's all part of You Mode. The convenience of owning
a Ford. Made just for you.

Ask your salesperson for a test-drive today.
