Glossary

Well Maintained - Regular Oil Changes

██████████ identifies a "Well Maintained - Regular Oil Change" vehicle as having a regular oil change history when all its recommended oil changes, based on the vehicle's maintenance schedule, have been reported to ██████████. ██████████ uses the manufacturer's schedule and assumes normal driving conditions. When an oil change schedule is not available, ██████████ may analyze reported service events to determine what is typical for the same make and model vehicle. Dealers and service shops may publish different recommended service schedules.

██████████ Owner

When the ██████████(s) obtains a title from a ██████████ as proof of ownership.

██████████ or ██████████ Recall

The ██████████ provides ██████████ with Field Service Action and recall information regarding safety, compliance and emissions programs announced since ██████████ for a specific vehicle. For complete information regarding programs or concerns about this vehicle, please contact a local ██████████ or ██████████.

Ownership History

██████████ defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, ██████████ proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after ██████████ and titled solely in the ██████████ including ██████████. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: ██████████, ██████████, ██████████, ██████████, ██████████, ██████████ and ██████████. Please consider this as you review a vehicle's estimated ownership history.

Title Issued

A state issues a title to provide a vehicle owner with proof of ownership. ██████████ has a unique number. ██████████ or registration record on a ██████████ report does not necessarily indicate a change in ownership. In ██████████, a registration and bill of sale are used as proof of ownership.
