Here is the picture of the filter failure that we talked about [REDACTED]. The crack was across the bottom of the bowl and up the side. Not below the rim like I stated that is where we cut the part apart so we could examine the filter [REDACTED]. The actual crack was trans lateral as seen in the pics. You can see how bad the filter was it had not been changed after many, [REDACTED]. I will send this part on to [REDACTED] analysis. The part was welded here in June of [REDACTED].
