ULTIMATE PERFORMANCE

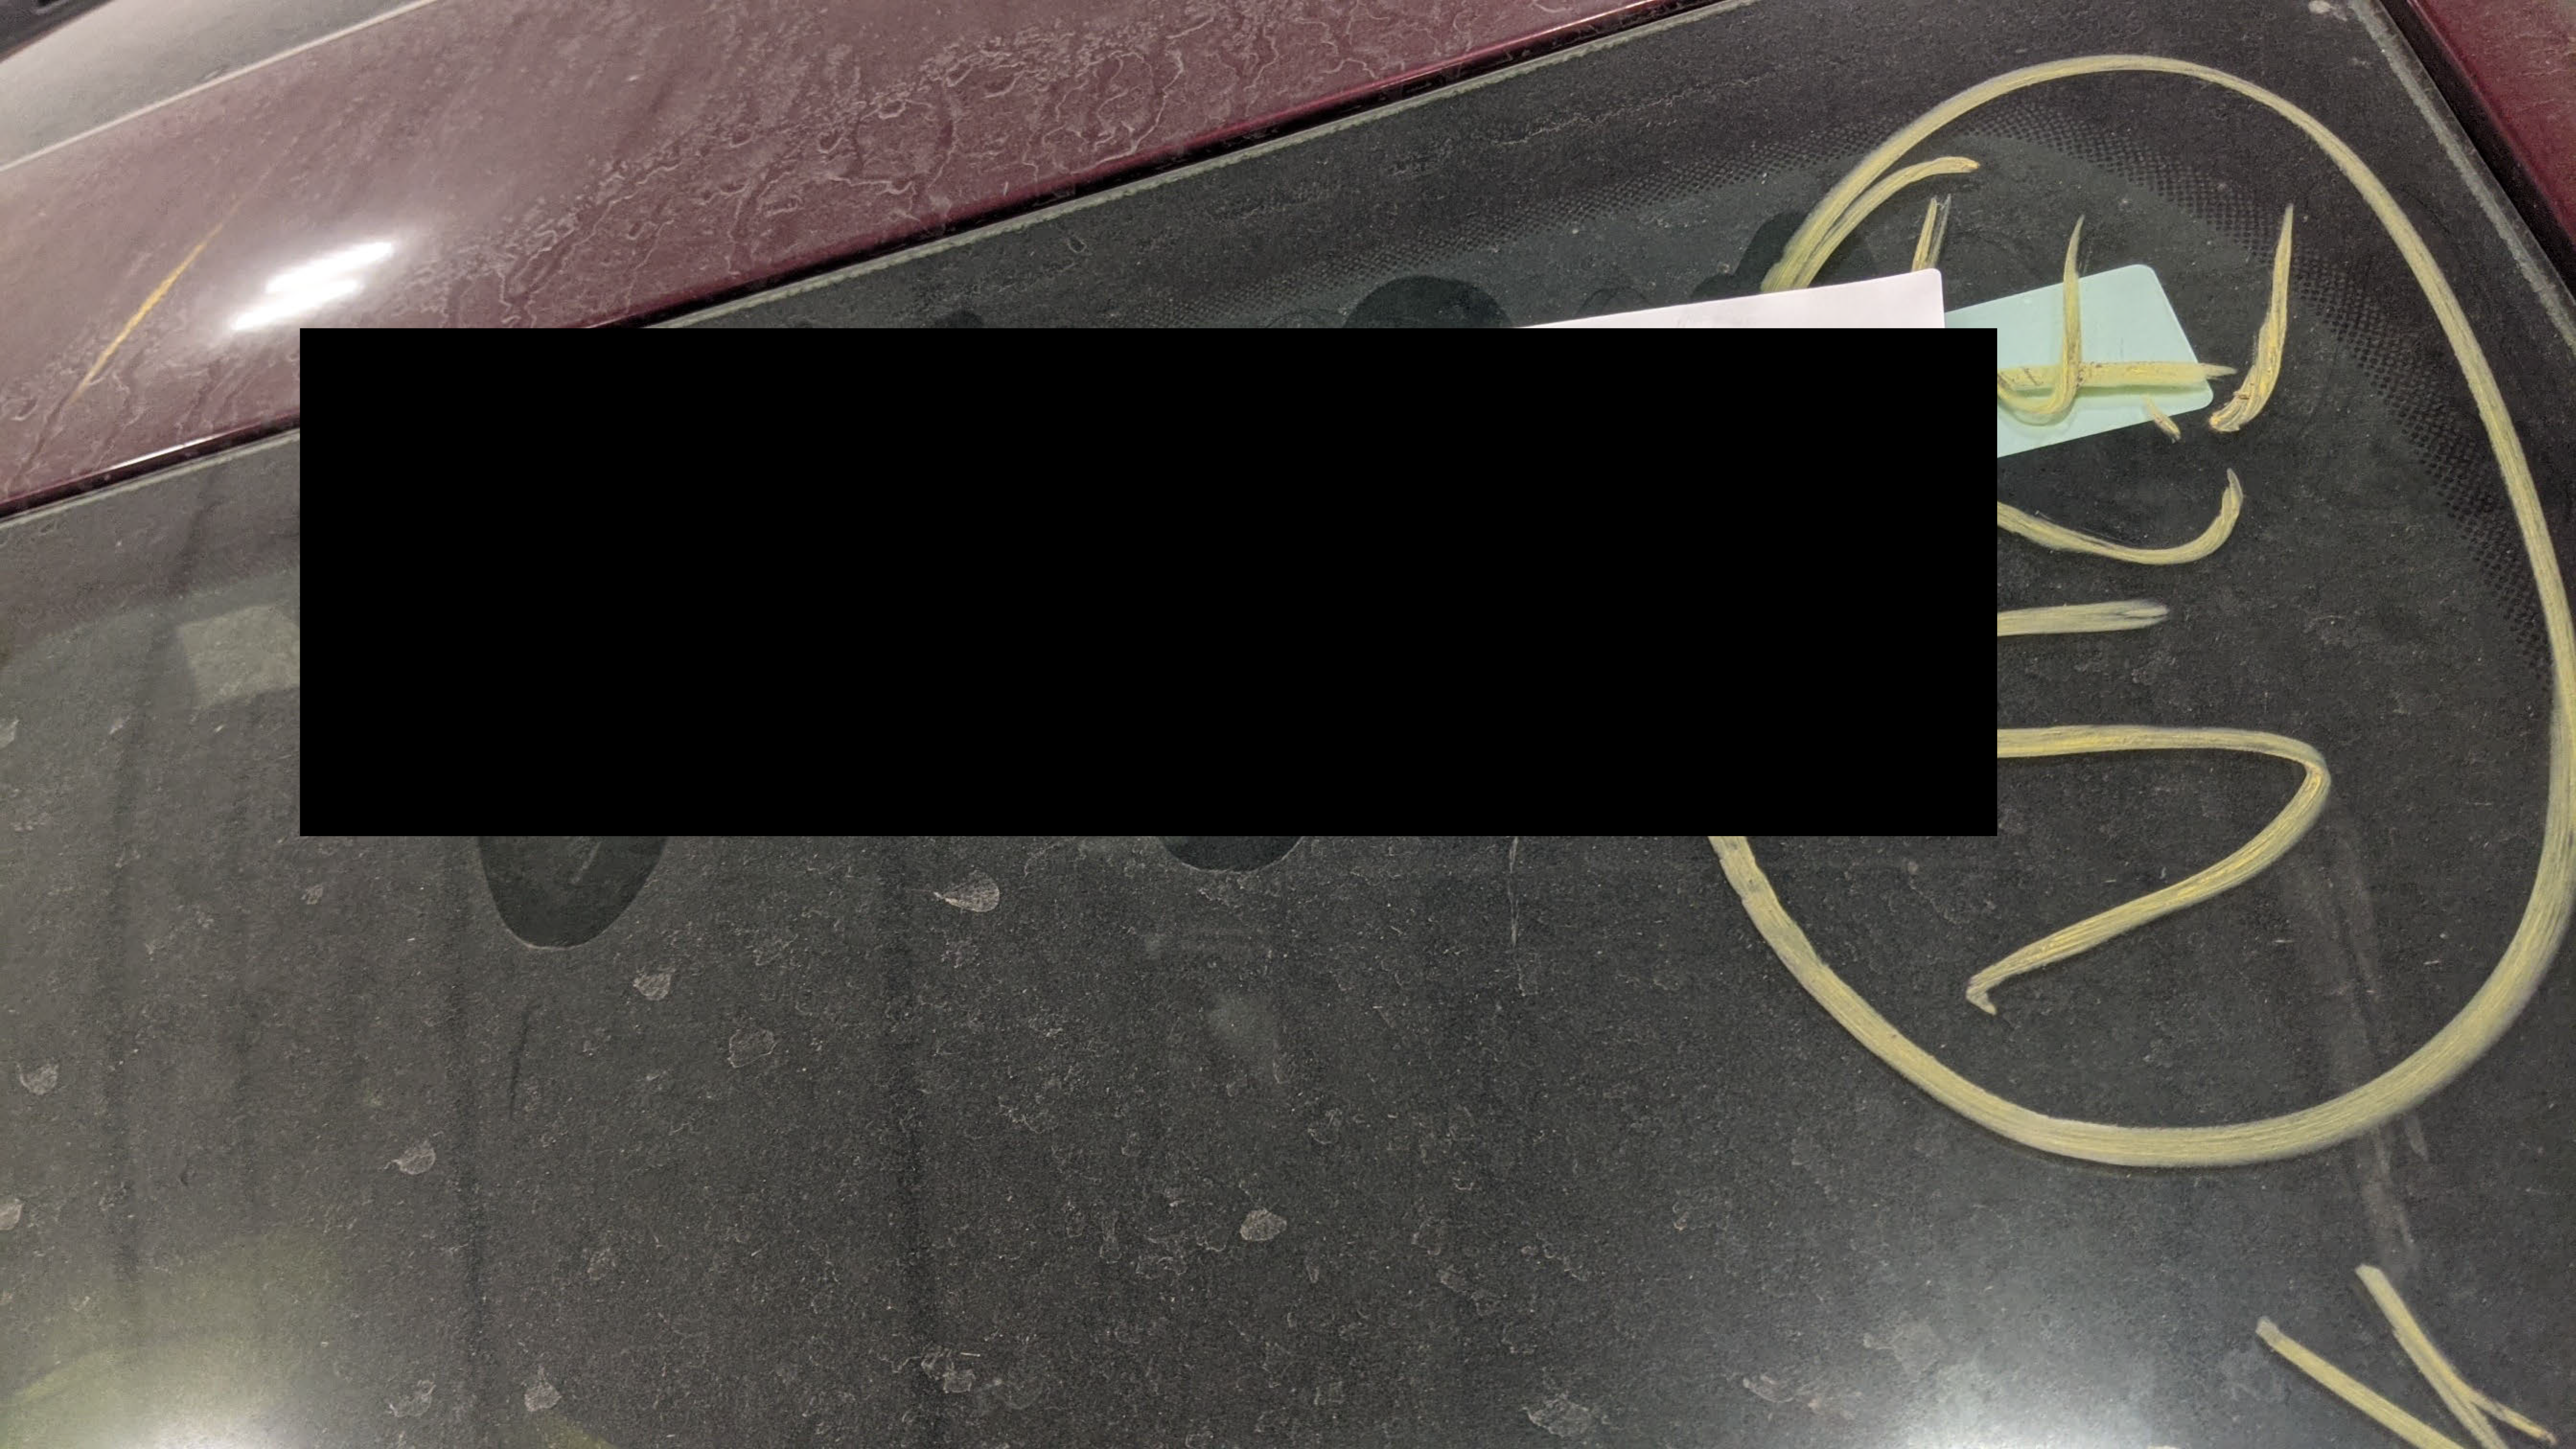

A detailed close-up photograph of a vehicle's left rear suspension and brake components. The image shows a dark, possibly black, brake caliper mounted on a metal bracket. A thick, black rubber brake hose is connected to the caliper. The surrounding area is heavily rusted and shows signs of wear and tear. A yellow label with the text "LEFT REAR" is placed over the lower part of the image.

LEFT REAR

A detailed close-up photograph of a vehicle's left rear suspension and brake components. The image shows a dark, heavily worn metal frame with visible rust and surface degradation. A black plastic brake caliper is mounted on the right side, with a brake pad visible inside. A black rubber brake hose runs horizontally across the center. To the left, a metal control arm is visible, showing signs of wear and discoloration. A yellow label with the text "LEFT REAR" is positioned in the lower center of the frame.

LEFT REAR

A close-up photograph of a vehicle's left rear wheel assembly. The image shows a dark, metallic wheel hub and a portion of the tire. A bright yellow rectangular label with the text "LEFT REAR" in bold black capital letters is placed on the ground next to the wheel. The ground is dark and textured, possibly asphalt or concrete. The lighting is focused on the wheel and the label, creating some shadows.
