Request 12

State the number of each of the following that Ford has sold that may be used in the subject vehicles by component name, part number (both service and engineering/production), model and model year of the vehicle in which it is used and month/year of sale *(including the cut-off date for sales, if applicable)*:

a. Subject component (including, but not limited to, the molded lead frame and Output Speed Sensor); and
b. Any kits that have been released, or developed, by Ford for use in service repairs to the subject component/assembly.

For each component part number, provide the supplier's name, address, and appropriate point of contact (name, title, and telephone number). Also identify by make, model and model year, any other vehicles of which Ford is aware that contain the identical component, whether installed in production or in service, and state the applicable dates of production or service usage.

Answer

As the agency is aware, Ford service parts are sold in the U.S. to authorized Ford and Lincoln dealers. Ford has no means to determine how many of the parts were actually installed on vehicles, the vehicle model or model year on which a particular part was installed, the reason for any given installation, or the purchaser's intended use of the components sold.

Ford is providing the total number of Ford service replacement subject component parts for subject vehicles up to April 08, 2024. The part numbers (both service and engineering), year of sale, where available, and supplier point of contact information is provided in the file "RQ24-005 Request 12 – Parts Sales History."

Ford notes that the subject component parts were installed in production for six-speed automatic 6R80 transmission applications for various vehicles. A summary of the vehicles and production dates is shown below:

Model Years	Ford F-150	Ford Expedition	Lincoln Navigator	Ford Mustang	Ford Transit
2009	01/2008-08/2009	02/2008-06/2009	01/2008-06/2009	n/a	n/a
