

P door

LAST WEEK, PROBABLY EARLY IN THE WEEK. DOOR OPENED ONCE WHILE PULLING OUT OF DRIVEWAY/TURNING ONTO STREET. OPENED FULLY.

2/1/23 ~5PM STARTED TO UNLATCH WHILE DRIVING STRAIGHT. COULD HEAR LATCH OPEN SLIGHTLY. FOUND HE COULE PULL DOOR TO A COMPLETE CLOSED POSITION LIKE IT WAS NOT CLOSED ALL THE WAY.

DOES NOT THINK IT IS TIED TO RAIN. HAPPENED IN DRY CONTITIONS AND WAS NOT RAINED/WASHED RECENTLY. NEVER TAKEN TO CAR WASH.

COUPLE OF INSTANCES, TIMES WHERE HE HAD PARKED FOR ~1 HOUR. GOT NOTIFICATION THAT DOOR WAS OPEN IN APP. SURE ENOUGH DOME LIGHT ON AND DOOR WAS ABLE TO BE PULLED OPEN WITHOUT UNLATCHING.

1/27/2023 ~6:15 PM CONNECTED TO CHARGER, SITTING IN CAR WAITING. HEARD DOOR LOCK CLICKING. CAR NOT ON AND NO FOOT ON BRAKE. DOOR LATCH SOUNDED LIKE UNLATCHED AND LATCHED AGAIN.

SIMILAR CONDITION OF NOISE REMINISCENT OF UNLATCHING/LATCHING HAS OCCURED WITHOUT THE DOOR SHOWING OPEN. OCCURS AT VARIOUS SPEEDS, MOST COMMONLY 7-15MPH
