Haven't heard back from you or any escalation point Les. My number is +[REDACTED] and I would appreciate a call. This was a huge headache with a bunch of run around and I had to buy fuel? Below is another receipt, days later with no reply and attached is fuel I had to purchase. I would have been running on electric. And the jeep came back not fully charged too. It's a 4xe

Thanks. Look forward to hearing from someone. I love Jeeps, this is my third one.
