

NHSTA VOQ Claim – ODI:

- ODI Comment: 'drove to freeway in [XXX] and my car just suddenly stopped.'
- PD Analysis after CV data review: Possible LOMP event after 24S24 repair, however, failure at highway speed is not consistent with 24S24 symptoms.

Comment: No warranty claim for battery through December 2024, but vehicle out of warranty before 24S24 was installed.

VIN	Incident Date	24S24	Note	Conclusion
	7/18/2024	7/16/2024	No claim at Dealer after Recall Died at speed on highway	SOC Plot appears to be LOMP with battery replacement, highway speed points to unique cause unrelated to 24S24.
