REASON FOR THIS SAFETY RECALL

On some of the affected vehicles, the driver and/or front passenger seatbelt retractor pretensioners may deploy inadvertently while the vehicle's engine is on. Inadvertent deployment of the retractor pretensioner will result in the seatbelt being locked in position and will not retract or extend, which is noticeable to the occupant. While the primary seatbelt locking functions continue to function properly, a seatbelt that does not retract or extend may result in injury in the event of a crash.

SERVICE ACTION

DO NOT DEMONSTRATE OR DELIVER any new in-stock vehicles involved in this safety recall. Before demonstrating or delivering any new in-stock vehicles involved in this recall, dealers are to first inspect each vehicle to determine if the vehicle seat belt retractor part numbers are on the replacement list, then replace those retractors that are involved. This service must be performed on all affected vehicles at no charge to the vehicle owner. For new vehicle storage guidelines, refer to EFC13033, Storage Guidelines for New Vehicles.
