

Document Type	Document Description	Reason for Confidential Treatment
Test Procedures or Specifications	Internal test procedures developed by Ford Motor Company to be used by Ford and its suppliers to during the design and development of its vehicles.	Information concerning or revealing Ford's testing programs, including test requests, specifications and results could be used by competitors to improve their own products and processes without the need to invest the substantial resources invested by Ford.
Engineering Design Specifications	Internal Ford Motor Company document containing necessary information to be used by Ford and its suppliers to produce or evaluate parts which are usually issued in conjunction with engineering drawings during the design and development of its vehicles.	Information concerning Ford's engineering design processes could be used by competitors to develop or improve their own products and processes without the need to invest the substantial resources invested by Ford.
Design Verification Plan and Report (DVP&R)	Internal Ford Motor Company documents reflecting test plans, procedures and results conducted by Ford Motor Company, or on behalf of Ford Motor Company by a third party vendor or supplier.	Information concerning or revealing Ford's testing programs, including test requests, specifications and results could be used by competitors to improve their own products and processes without the need to invest the substantial resources invested by Ford.
Design Failure Mode and Effects Analysis (DFMEA)	Internal studies by Ford Motor Company engineers, or on behalf of Ford Motor Company by a supplier conducted in an effort to improve Ford's product design, or to determine the root cause of the alleged defect which is the basis of this investigation.	Information concerning Ford's engineering design processes could be used by competitors to develop or improve their own products and processes without the need to invest the substantial resources invested by Ford.
Test Results / Reports / Analysis	Documents reflecting the results of engineering testing conducted by Ford Motor Company, or on behalf of Ford Motor Company by a third party vendor or supplier.	Information concerning or revealing Ford's testing programs, including test requests, specifications and results could be used by competitors to improve their own products and processes without the need to invest the substantial resources invested by Ford.
Process Failure Mode and Effects Analysis (PFMEA)	Internal studies by Ford Motor Company engineers, or on behalf of Ford Motor Company by a supplier conducted in an effort to improve Ford's manufacturing process, or to determine the root cause of the alleged defect which is the basis of this investigation.	Information concerning Ford's manufacturing processes could be used by competitors to develop or improve their own products and processes without the need to invest the substantial resources invested by Ford.
Supplier Capabilities / Relationship	Internal Ford Motor Company documents discussing its opinions of suppliers' capabilities and performance.	Information concerning business relationships between Ford and suppliers could be used by competitors to identify and/or modify competitive strategies and strategic supplier partnerships without the need to invest the substantial resources invested by Ford.
Internal Marketing Materials	Internal Ford Motor Company documents containing information regarding the design, development, and functionality of vehicle lines and components.	Information concerning Ford's vehicle lines is proprietary intellectual property, the release of which could cause substantial competitive harm to Ford if used by competitors to develop or improve their own products and processes without the need to invest the substantial resources invested by Ford.
