Re: Information Request ID RQ24013-02

Dear Ms. Yukevich,

In reply to the second Information Request (IR) letter dated February 4, 2025, Honda is submitting this initial response regarding your investigation (RQ24-013) to assess the scope of recall 23V-751. This submission contains the responses to questions one (1) and four (4) of the IR letter. The responses to the other questions will be submitted by March 14, 2025, per the due-date-extension-request previously granted on February 19, 2025.

Respectfully,

AMERICAN HONDA MOTOR CO., INC.

Andrea Martin
Senior Director
Product Regulatory Office

AM:tk

1. Produce copies of all service, warranty, and other documents that relate to, or may relate to, the Alleged Defect in the Subject Vehicles, that Honda has issued to any dealers, regional or zone offices, field offices, fleet purchasers, or other entities. This includes, but is not limited to, bulletins, advisories, informational documents, training documents, or other documents or communications, with the exception of standard shop manuals. Also include the latest draft copy of any communication that Honda is planning to issue within the next 120 days.

Response:

In searching for such communications, Honda has found no such documents.

4. State the number of each of the following that Honda has sold that may be used as repair/replacement parts in the Subject Vehicles by component name, part number (both service and engineering/production), model and model year of the vehicle in which it may be used and month/year of sale including the cut-off date for sales, if applicable:
 - a. Short block assembly for Subject Component;
 - b. Crankshafts for Subject Component;
 - c. Connecting rods for Subject Component;
 - d. Connecting rod bearings for Subject Component; and
 - e. Any kits that have been released, or developed, by Honda for use in service repairs to the Subject Component.

Response:

The attached Excel file consists of two tabs.

- *The first tab contains:*
 - *A table with the applicable part numbers for the parts that this requests sales information for*
 - *It also contains notes with additional information on what other models and model years that the part numbers in the table may also apply to (the notes are repeated below for direct reference within this letter)*

IMPORTANT NOTE: *since it's not possible to determine for which model, model year or the reason that a particular part sold was utilized, the overall parts sales data in the second tab is NOT only for part sales related to the models and model years that this RQ & IR Letter pertains to. Instead, the part sales data encompasses sale for all possible models, model years and reasons for the part sale.*

- *The second tab contains the part sales data for each of the relevant part numbers*
