

Question 14 RQ25001

14. State the number of subject vehicles that have:

- a. Been remedied as a part of recall 22V887 (software update);
- b. Had an alert generated from the recall remedy software;
- c. Had battery packs physically inspected; and
- d. Had battery packs replaced.

For each subject vehicle that had battery packs replaced, please describe:

- e. How many of the battery packs on each bus were replaced;
- f. Worst extent of damage from battery pack with detected liquid accumulation.

Phoenix Response

For subsections (a) through (e), Phoenix provides this data in “**REQUEST 14 RQ25001**” in the data room. For subsection (f), Phoenix provides the following response: Phoenix does not have any knowledge or information relating to any damage (with or without a detected liquid accumulation event) to any subject vehicles that have had battery packs replaced.
