15143 Towed vehicle in and charged the battery. Once battery was charged i was able to roll up the window and attempt starting the vehicle. No start scenario present so i checked fuse for starter. Blown starter fuse. I cannot rotate the engine as it is locked up. I recommend replacing the engine assembly, intake manifold, and radiator. I removed and replaced engine, radiator, and cooler lines. I had to remove lower oil pan and loosened the bearing cap bolts to rotate the engine and gain access to torque converter bolts. I set fluid levels and performed pre-lube procedure and crank learn procedure. I performed road test with no issues. old S/N [REDACTED] NEW S/N- [REDACTED]
