#1 - Customer Reports:			
DIED WHILE DRIVING AT IDAHO BORDER, WILL NOT RESTART, TOWED...			
Caused by			
verified the customers concern. found the starter appendix to be doing its job, but the pinion itself within the starter is not turning. used a test light and found the 400 amp starter fuse @ the battery fuse block to be blown. recommend replacing. once the fuse was replaced, it was found that the engine was stumbling all over itself. the vehicle once hot would also die every minute or so. no dtcs were found throughout the whole vehicle. i drained the engine oil to get a sample and found excessive metal debris. also recommend replacing the engine.
