**GMC** Lonnie Dirk Ryan

Statement:

12 23 25 GMC SLT 6.2L quit running in a curve up hill on hwy going 60mph. Nearly causing accident... and block traffic in rush traffic. With no way to get in neutral.. over hour for wrecker to get to safety..dealer says get 6 days rental and no embursment for tow.... after such a big recall on a known defect of engine parts can't provide a loaner. Especially since I bought the truck at the dealer. So disappointed
