

OWNER'S LETTER

Dear Nissan owner:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act. Nissan has determined that a defect relating to motor vehicle safety exists in some 2001 model year Nissan Quest vehicles.

Reason for Recall

On some 2001 model year Nissan Quest vehicles, there is a possibility that the bolt attaching the front seat belt buckle to the seat frame may not have been installed properly. If the bolt loosens, the buckle could pull out of its attachment in the event of a severe crash and increase the risk of injury.

What Nissan Will Do

Your Nissan dealer will replace affected seat belt buckles at no charge to you. This free service should take about one hour to complete, but your Nissan dealer may require your vehicle for a longer period of time based upon their work schedule, or parts availability.

What You Should Do

Contact your Nissan dealer at your earliest convenience in order to arrange an appointment to have your vehicle repaired. Please bring this notice with you when you keep your service appointment. Instructions have been sent to your Nissan dealer. If the dealer fails, or is unable to make the necessary repairs free of charge, you may contact the National Consumer Affairs Office, Nissan North America, Inc. at P.O. Box 191, Gardena, California 90248-0191. The toll free number is 1-800-NISSAN1 (1-800-847-7261). If you reside in Hawaii, please call 1-808-836-0888.

You may also contact the Administrator of the National Highway Traffic Safety Administration, 400 Seventh Street SW, Washington, D.C. 20590 or call the toll free Safety Hotline at (888) 327-4236.

Thank you for your cooperation. We are indeed sorry for any inconvenience this may cause you.
