(Sample Of Notification Used)

Dear General Motors Customer:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Reason For This Recall: General Motors has decided that a defect which relates to motor vehicle safety exists in certain 1999-2000 Chevrolet Silverado and GMC Sierra pickup trucks; and 2000 Chevrolet Tahoe and Suburbans, and GMC Yukon and Yukon XL vehicles. Some of these vehicles have a clearance condition between the front right-hand brake pipe and the body cross sill that may decrease to the point of allowing contact during the life of the vehicle. If contact occurs and the brake pipe becomes damaged, in half of the brake system there can be a loss of brake fluid and pressure. The brake warning lamp will be activated when the brake fluid level reaches the indicator limit. During braking, the pedal will be lower than normal and stopping distances will be longer. If this occurs when stopping distance is limited, a crash could occur.

What Will Be Done: Your dealer will inspect the front right-hand brake pipe and ensure sufficient clearance between the brake pipe and the body cross sill. During this inspection if the brake pipe shows signs of wear, your dealer will replace this section of brake pipe. This service will be performed for you at no charge.

How Long Will The Repair Take? The length of time required to perform this service procedure is approximately twenty minutes. If the brake pipe should require replacement, another 50 minutes will be required. Additional time may be required to schedule and process your vehicle. If your dealer has a large number of vehicles awaiting service, this additional time may be significant. Please ask your dealer if you wish to know how much additional time will be needed to schedule, process and repair your vehicle.

Contacting Your Dealer: Please contact your dealer as soon as possible to arrange a service date. Parts are available and instructions for making this correction have been sent to your dealer. Your dealer is best equipped to obtain parts and provide services to correct your vehicle as promptly as possible. Should your dealer be unable to schedule a service date within a reasonable time, you should contact the appropriate Customer Assistance Center at the listed number below:
