## MOTOR VEHICLE RECALL

Dear 2003 Tiburon Owner:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Hyundai has determined that a defect, which relates to motor vehicle safety, exists in certain 2003 model year Tiburon vehicles produced during the period beginning October 1, 2001 through January 29, 2002.

### **What is the problem?**

- The left lower instrument panel bracket was not installed on some early production 2003 model year Tiburon vehicles produced during the period beginning October 1, 2001 through January 29, 2002. This bracket is located on the driver's side, below the steering column and behind the plastic lower instrument panel trim.

If this bracket has not been installed, there may be an increased likelihood of injury or increased severity of injury in a frontal collision.

### **What will Hyundai do?**

- To ensure that the left lower instrument panel bracket was installed on your vehicle, we are asking you to schedule an appointment as soon as possible to take your vehicle to your Hyundai dealer. The Hyundai dealer will inspect your vehicle to determine if the bracket has been installed. If necessary, the dealer will install the left lower instrument panel bracket at no charge to you. You should plan to leave your vehicle at your Hyundai dealer for a half day to have this service performed.

### **What should you do?**

- We urge you to call your Hyundai dealer to schedule an appointment to have this work performed as soon as possible.

### **What if you have other questions?**

- If you have any difficulty having this repair performed, we recommend that you call the Hyundai Customer Assistance Center at 1-800-633-5151. If you are still not satisfied that we have remedied this situation without charge, and within a reasonable amount of time, you may wish to write to the Administrator, National Highway Traffic Safety Administration, 400 Seventh Street, S.W., Washington, D.C. 20590 or call their toll-free Auto Safety Hotline at 1-888-327-4236.

We urge your prompt attention to this important safety matter.
