

OWNER'S LETTER

Dear Nissan owner:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act. Nissan has decided that a defect which relates to motor vehicle safety exists in some 2000-2003 model year Nissan vehicles. Our records indicate that you own the Nissan vehicle identified by the Vehicle Identification Number on the cover of this notice.

Reason for Recall

On some 2000-2003 model year Nissan vehicles, there is a possibility that the engine might stop running while being driven if the crank position sensor fails. This may also result in the "Service Engine Soon" light coming on or reduced engine power. If the engine stops running while driving, this could result in a crash without warning.

What Nissan Will Do

In order to prevent this incident from occurring, your Nissan dealer will replace the crank position sensors. This free service should take about one hour to complete, but your Nissan dealer may require your vehicle for a longer period of time based upon their work schedule, or parts availability.

What You Should Do

Contact your Nissan dealer at your earliest convenience in order to arrange an appointment to have your vehicle repaired. If the "Service Engine Soon" light comes on, contact your dealer as soon as possible to have your vehicle inspected. Please bring this notice with you when you keep your service appointment. Instructions have been sent to your Nissan dealer. If the dealer fails, or is unable to make the necessary repairs free of charge, you may contact the National Consumer Affairs Office, Nissan North America, Inc. at P.O. Box 191, Gardena, California 90248-0191. The toll free number is 1-800-NISSAN1 (1-800-847-7261). If you reside in Hawaii, please call 1-808-836-0888. You may also contact the Administrator of the National Highway Traffic Safety Administration, 400 Seventh Street SW, Washington, D.C. 20590 or call the toll free Safety Hotline at (888) 327-4236.

If you have paid to have a crank position sensor replaced prior to this campaign, you may be eligible for reimbursement of the related expense. Contact Nissan Consumer Affairs at the numbers listed above for additional information on how to obtain a reimbursement.

Federal law requires that any vehicle lessor receiving this recall notice must forward a copy of this notice to the lessee within ten days.

Thank you for your cooperation. We are indeed sorry for any inconvenience this may cause you.

OWNER'S LETTER

Dear Infiniti owner:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act. Infiniti has decided that a defect which relates to motor vehicle safety exists in some 2002-2003 model year Infiniti vehicles. Our records indicate that you own the Infiniti vehicle identified by the Vehicle Identification Number on the cover of this notice.

Reason for Recall

On some 2002-2003 model year Infiniti vehicles, there is a possibility that the engine might stop running while being driven if the crank position sensor fails. This may also result in the "Service Engine Soon" light coming on or reduced engine power. If the engine stops running while driving, this could result in a crash without warning.

What Infiniti Will Do

In order to prevent this incident from occurring, your Infiniti dealer will replace the crank position sensors. This free service should take about one hour to complete, but your Infiniti dealer may require your vehicle for a longer period of time based upon their work schedule, or parts availability.

What You Should Do

Contact your Infiniti dealer at your earliest convenience in order to arrange an appointment to have your vehicle repaired. **If the "Service Engine Soon" light comes on, contact your dealer as soon as possible to have your vehicle inspected.** Please bring this notice with you when you keep your service appointment.
