Thanks.

The owner mail date changed from March 25 to March 31, 2003.  
I'll report it for the 1Q 2003 and then for 6 more quarters.

Yes, sometimes we ask for quarterly reports and since this one had an engineer  
ing analysis on it, the agency would like to track them.

I have assigned 03V-144 to this one. I'll e-mail and fax something to  
you tod  
ay hopefully.

I understand the agency is requesting 6 Quarterly Completion Reports  
for  
this optional product improvement program.  
Have you assigned a NHTSA reference number to this program?  
Owner letters were mailed March 25, 2003.

How many vehicles are included in this improvement campaign and do you have a definite beginning date of manufacture?
