

November 18, 2003

Mr. George Person
Chief for Recall Management
National Highway Traffic Safety Administration
400 Seventh Street, S.W.
Washington, D.C. 20590

Dear Mr. Person:

In the case of the recall campaign 03V-476 (FX Front Brake Callper) and 03V-477 (Sentra ECM Foam), Nissan will not include a statement in the owner notification concerning reimbursements for repair prior to the recall because the vehicles involved in these campaigns will have been under warranty up until the time the recall campaigns will be started.

We will incorporate into future Part 573 Reports a statement regarding reimbursements prior to the start of the recall campaign.

Very truly,

Frank D. Slaveter
Senior Manager,
Technical Compliance
