Re: Model A , Serial #
Selling Dealer:

SUBJECT; Triple E Recreational Vehicles is Recalling your Motorhome. This Notification will advise of an issue that relates to seatbelt safety.

Description of Defect:

Your motorhome was manufactured with the inside seatbelt receiver buckle, on the driver and passenger chairs, securing bolt that may be over torqued causing the thread to be stripped. This metric threaded bolt is secured into a standard threaded seatbelt bar and when over-torqued may well be stripped causing a loosened seatbelt strap and thus reducing security in the driver and passenger seating areas.

Correction of Defect:

Included in this mailing you will find 2 metric threaded 12mm nuts. The pictures included will clearly show the correct location to install these nuts. Photo #1 shows the location of the metric bolts that require the 12mm nut installed. Photo #2 shows the actual nut installed. These nuts must be torqued to 30 ft. lbs. This Recall will be done under our normal warranty procedures and at no cost to you.

Procedure to have this Modification Performed:

Contact your selling dealer and request an appointment, which will be suitable for yourself and your selling dealer. You will need to bring the 2-12mm nuts that are included in this mailing, along with you to your appointment. In situations where your selling dealer creates a concern due to distance, you may take your unit to a service center near you to have this Recall performed. Remember, these nuts must be torqued to 30 ft. lbs. Your service center can re-claim a maximum of \$40.00 to install and torque these nuts by completing the enclosed form and mailing the form to Triple E Recreational Vehicles.

This form must be fully completed to qualify for payment.
