Dear Mr. Weinstein:

The following information is submitted pursuant to the requirements of 49 CFR 573.6 as it applies to a determination by General Motors of a noncompliance involving certain 2005 Chevrolet Cobalt model vehicles.

573.6(c)(1): Chevrolet Division of General Motors Corporation

573.6(c)(2)(3)(4): This information is shown on the attached sheet.

573.6(c)(5): General Motors has decided that certain 2005 model year Chevrolet Cobalt headlamps fail to conform to Federal Motor Vehicle Safety Standard 108, Lamps, Reflective Devices, and Associated Equipment, because the shields inside of the headlamps can loosen during a vibration test. If this occurred on a headlamp installed in a vehicle, oncoming drivers may notice additional glare.

573.6(c)(6): On November 11, 2004, Guide Lamp, a supplier, notified GM that during a validation testing of a side reflex change they discovered that headlamps had a bulb shield reinforcement that was not continuously brazed. The bulb shield may loosen or break because of vibration. MVSS testing was conducted on two suspect parts. One part failed six minutes into the test, and the other at approximately 30 minutes. A stop delivery message was sent to dealers on November 12, 2004 and a telephone message was left for NHTSA on November 13, 2004 about this communication to dealers.

Most of GM's U.S. plants and offices were closed on November 15, 2004 for a holiday.

The GMNA Senior Management Committee recommended a field action and on November 16, 2004, the FADC decided to conduct a noncompliance recall.

573.6(c)(8): Dealers are to install two new headlamp assemblies.

Pursuant to 577.11(e), GM does not believe notification about reimbursement is required for this recall. The involved vehicles are current model vehicles and are covered by the new car warranty.

573.6(c)(9): Attached is the final bulletin and owner letter. GM notified dealers and sent owners letters on November 17, 2004.

Sincerely,

Gay P. Kent
Director

COURTESY TRANSPORTATION

The General Motors Courtesy Transportation Program is intended to minimize customer inconvenience when a vehicle requires a repair that is covered by the New Vehicle Limited Warranty. The availability of courtesy transportation to customers whose vehicles are within the warranty coverage period and involved in a product recall is very important in maintaining customer satisfaction. Dealers are to ensure that these customers understand that shuttle service or some other form of courtesy transportation is available and will be provided at no

charge. Dealers should refer to the General Motors Service Policies and Procedures Manual for courtesy transportation guidelines.

CUSTOMER NOTIFICATION

General Motors will notify customers of this recall on their vehicle (see copy of customer letter included with this bulletin).

DEALER RECALL RESPONSIBILITY – For US

The US National Traffic and Motor Vehicle Safety Act provides that each vehicle that is subject to a recall of this type must be adequately repaired within a reasonable time after the customer has tendered it for repair. A failure to repair within sixty days after tender of a vehicle is prima facie evidence of failure to repair within a reasonable time. If the condition is not adequately repaired within a reasonable time, the customer may be entitled to an identical or reasonably equivalent vehicle at no charge or to a refund of the purchase price less a reasonable

allowance for depreciation. To avoid having to provide these burdensome remedies, every effort must be made to promptly schedule an appointment with each customer and to repair their vehicle as soon as possible. In the recall notification letters, customers are told how to contact the US National Highway Traffic Safety Administration if the recall is not completed within a reasonable time.

This bulletin is notice to you that the new motor vehicles included in this recall may not comply with the standard identified above. Under Title 49, Section 30112 of the United States Code, it is illegal for a dealer to sell a new motor vehicle which the dealer knows does not comply with an applicable Federal Motor Vehicle Safety Standard. As a consequence, if you sell any of these motor vehicles without first performing the recall correction, your dealership may be subject to a civil penalty for each such sale.

DEALER RECALL RESPONSIBILITY - ALL

All unsold new vehicles in dealers' possession and subject to this recall must be held and inspected/repaired per the service procedure of this recall bulletin before customers take possession of these vehicles.

Dealers are to service all vehicles subject to this recall at no charge to customers, regardless of mileage, age of vehicle, or ownership, from this time forward.

Customers who have recently purchased vehicles sold from your vehicle inventory, and for which there is no customer information indicated on the dealer listing, are to be contacted by the dealer. Arrangements are to be made to make the required correction according to the instructions contained in this bulletin. A copy of the customer letter is provided in this bulletin for your use in contacting customers. Recall follow-up cards should not be used for this purpose, since the customer may not as yet have received the notification letter.

In summary, whenever a vehicle subject to this recall enters your vehicle inventory, or is in your dealership for service in the future, you must take the steps necessary to be sure the recall correction has been made before selling or releasing the vehicle.
