Part 573 Report Date: July 23, 2004

Date Faxed: August 10, 2004

MANUFACTURER: National R.V. Inc.

MANUFACTURER CONTACT: Jonathan Corn, Vice President/General Counsel

FAX: 909-943-8638

SUBJECT: 776 National RV 2004-2005 Tropi-Cal motor homes. Depending on the floor plan configuration and options, the actual weight on the rear passenger side tires could exceed the tire capacity for those tires at the current cold inflation pressure setting. The tire pressure specified on the certification label for the rear tires should be increased to 110 psi. This will increase the gross load carrying capacity of the tires.
