SUBJECT: 95 Monaco 2004 Beaver Patriot motor homes fail to conform to the requirements of Federal Motor Vehicle Safety Standard No. 110, 'Tire Selection And Rims.' The Federal identification labels contains incorrect information regarding the rim size and tire inflation rating as well as an incorrect rating for the gross vehicle weight rating (GVWR) and front gross axle weight rating (GAWR). This misprint could lead to an incorrect rim being placed on the unit that would not be rated for the GAWR, in addition to overloading the unit and over-inflating the tires.
