SUBJECT: 107 Van Hool 2004 C2045 and T2145 motorcoaches built with Cummins and Detroit engines and manufactured from January 5, 2003 through November 6, 2004, the hose fittings of the power steering pressure feed lines units may have been improperly crimped.

This is an acknowledgment for this recall. A formal acknowledgment letter will be written only if we have additional comments or concerns.

Please provide us with a draft owner notification letter for our review before mailing to consumers.

NOTE: We will need a date of when the manufacturer became aware of the recall.

As stated in Part 573.6, submission of the first of six consecutive quarterly status reports is required within one month after the close of the calendar quarter in which notification to purchasers occurs. As stated in your report, the recall is expected to begin September 30, 2004. Since this will be close to the end of the quarter, the first quarterly report will be due by January 30, 2005.
