Nissan Net Broadcast Message - Monday Evening, March 01, 2004

Subject: Upcoming Quest Voluntary Safety Recall Campaign

Attention - Dealer Principals, Sales, Parts and Service Managers

Nissan North America will be announcing a voluntary safety recall in the near future that affects approximately 15,300 Model Year 2004 Nissan Quest vehicles. Some of these vehicles may not comply with a Federal Motor Vehicle Safety Standard.

******* Dealer Responsibility *******

Federal law requires that new vehicles in dealer inventory, which are the subject of a safety recall, must be corrected prior to sale. Failure to do so can result in civil penalties by the National Highway Traffic Safety Administration.

******* Vehicles in Dealer Inventory *******

Please check your inventory of Model Year 2004 Quest vehicles and restrict the sale of any vehicles that fall within the following VIN range:

5N1BV28U*4N 300000 to 5N1BV28U*4N 315562

Nissan estimates that there are approximately 1,500 vehicles in dealer inventory that are affected by this upcoming campaign. Owners of vehicles retailed prior to this notification will be contacted at a later time to have their vehicle inspected and corrected if necessary.

******* Additional Information *******

Additional information related to this Safety Recall Campaign will be communicated to all Nissan dealerships as soon as the vehicle inspection and repair instructions are available. We expect this to occur within the next 2 weeks.

Your patience and understanding is appreciated.
