Ref: 04V-345

Dear Mr. Person:

The enclosed communication is being provided pursuant to 49 CFR Part 573.6(c)(9).

Technical Compliance Department

Encl.

Subject: 2004 Nissan Titan Upper Interior Occupant Protection Voluntary Safety Recall Campaign

Attention - Dealer Principals, Sales, Parts and Service Managers

******* Update to earlier Nissan Net Messages *******

Updated parts and repair instruction information is now available to repair customer vehicles. See below for additional details.

******* Parts Availability *******

An adequate supply of parts is available to support this campaign. Most dealers can expect to receive additional quantities of P/N 88844-7S20B and 88844-8S50A which are the more frequently used part numbers for this campaign during the week of September 27. If needed, additional quantities of these seat belt assemblies may be ordered starting October 1 using the normal parts ordering process.

Some dealers (based on retail sales information) may receive an initial supply of the less frequently used part numbers (P/N 88844-7S20A for King Cab with Sand Interior and P/N 88844-8S50B for Crew Cab manufactured prior to 4/2/04 with Sand Interior). Due to the limited number of vehicles that require these part numbers, these part numbers will remain on parts sales restriction. However, additional quantities of these parts may be ordered using the 2004 Titan Campaign Parts Order Form starting on October 1. The completed form can be faxed to (310) 771-2626 or e-mailed to campaign.parts@nissan-usa.com. A copy of the form will be available on NNA.net on October 1 and will be located under My Documents in the Parts/Campaign folder.

******* Repair Instructions *******

Recall Campaign Bulletin NTB04-086 2004 Nissan Titan Upper Interior Occupant Protection Voluntary Safety Recall Campaign is immediately available via ASIST Dial Update and also on NNA.net.com under My Documents in the Service/Campaign and Parts/Campaign folders. The bulletin addresses the specific service procedures and related parts and claim information. Please discard any copies of prior repair instructions.

******* Owner Notification *******

Nissan will start to notify owners on September 27, 2004 by mail if their vehicle is affected by this recall. Some owners may also be affected by the Titan A/T Column Shifter Voluntary Safety Recall Campaign. In an effort to maximize customer convenience, these owners will be notified of both campaigns at the same time.

******* Service Comm *******

It is the dealer's responsibility to check Service Comm for the campaign status on each vehicle falling within the range of this Voluntary Recall Campaign (R0406) which for any reason enters the service department. This includes vehicles purchased from private parties or presented by transient (tourist) owners and vehicles in a dealer's inventory. Nissan strongly encourages dealers to correct any used vehicles in their inventory before they are retailed.

Your continued support of the safety and customer satisfaction of Nissan Titan owners is appreciated. If you have any questions or need any additional information, please contact your Nissan Dealer Parts and Service Manager (DPSM).
