Dealer Salutation: TO ALL CHEVROLET DEALERS

DESCRIPTION:

PRODUCT SAFETY RECALL #04069 DATED: OCTOBER 4, 2004

- General Motors has decided that a defect, which relates to motor vehicle safety, exists in certain 2004 Chevrolet Aveo sedan vehicles. The rear outboard shoulder safety belts on these vehicles can contact the seatback folding release knob during safety belt use and the belt can become twisted. If the belt is fully extended and then released when it is twisted, the safety belt retractor may lock in position so that the belt cannot be used. If you are in a crash and you are not wearing a safety belt, your injuries can be much worse.
- Dealers are to install a safety belt webbing guide to prevent the belt from twisting.
- Refer to the Product Safety Bulletin for further information.

EFFECTIVE DATE:

Owner mailing is scheduled to begin October 11, 2004.

GENERAL INFORMATION:

The Parts list follows:

Part Number	Description	Quantity/Vehicle
93742516	Anchor, R/Seat	1

An initial supply of anchors required to complete this recall were pre-shipped to involved Dealers of record. This pre-shipment began on September 20, 2004, and was approximately 20% of each Dealer's involved vehicles. Pre-shipped parts will be charged to Dealer's open parts account.
