Subject: 2002-2004 Tribute Accelerator Cable Recall 2704L

Attention Mazda Service and Parts Managers:

This is to notify you of an upcoming recall on certain 2002-2004 Tribute vehicles.

You will receive detailed information the week of January 24.

Mazda will notify U.S. Tribute owners by first class mail beginning January 28, 2005.

Mazda Motor Corporation has decided that a defect, which relates to motor vehicle safety, exists in certain 2002-2004 Tribute vehicles produced from May 30, 2001 through December 19, 2003.

On certain 2002-2004 Tribute vehicles equipped with 3.0L engines, the accelerator cable may prevent the throttle from returning to the idle position, possibly resulting in elevated engine speeds while driving. An unexpected increase in engine idle speed may increase stopping distance and may result in a vehicle crash without warning.
