Re: Recall No. 04E-038

Kelly,

I received George Person's letter, and I was surprised to learn that NHTSA did not receive our 4th quarter 2005 update report. I sent this report and the 1st quarter 2006 report via email.

I sent the two most recent updates via email for expediency, but recognizing that email is a less formal and less verifiable delivery process. I enclose both reports for NHTSA records, and I shall send future updates via post.

I apologize for any inconvenience or confusion in regard to our recall program.

Sincerely,

John Coursen
