Recall Campaign No. 04V-029, Crimp Connection and Quick-Disconnect Coupling

Dear BMW Owner:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

BMW AG has decided that a defect that relates to motor vehicle safety exists in certain 2000 - 2004 BMW R & K Model motorcycles. Our records indicate that you are the owner of a potentially affected vehicle.

DESCRIPTION OF DEFECT

The potential defect involves crimp-type hose clamps along the fuel line. In certain cases, insufficient force has been applied to the crimp. As a result, a small leak could develop. If a leak develops, it is more common during a cold start of the motorcycle.

You may continue to ride your motorcycle; however, do not leave this problem unattended.

PRECAUTIONS

1. **CONTACT YOUR AUTHORIZED BMW RETAILER IMMEDIATELY TO HAVE THE NECESSARY REPAIR PERFORMED AS SOON AS POSSIBLE.**
2. If you are in any way concerned with your ability to safely operate the motorcycle, please contact your BMW retailer to arrange for pickup and repair of the motorcycle.
3. If you detect a fuel leak, your motorcycle may be experiencing this problem. If this occurs while operating the motorcycle, you should pull over carefully to a safe location away from traffic and immediately contact BMW Roadside Assistance at 1-800-332-4269 to have the motorcycle brought to the nearest Authorized BMW retailer. If you detect a leak prior to riding, please contact your BMW retailer to arrange for pickup and repair of the motorcycle.
4. If you are not the only rider of this motorcycle, please advise all other riders of this important information.

DESCRIPTION OF REPAIR

The repair will consist of inspecting, and if necessary adjusting, all crimp-type hose clamps. Additionally, all fuel line quick-disconnect couplings will be inspected. If a leak is detected, the quick-disconnect o-ring will be replaced. If damaged, the quick-disconnect coupling will be replaced.

This repair may take up to 2½ hours depending upon specific model configuration.

This repair will be performed *free of charge* by your Authorized BMW retailer. Additional time may be required depending on the BMW retailer's scheduling and processing.
