

July 2004

Dear General Motors Customer:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act. Federal regulation requires that any vehicle lessor receiving this recall notice must forward a copy of this notice to the lessee within ten days.

Reason For This Recall: General Motors has decided that a defect, which relates to motor vehicle safety, exists in certain 2002 and 2003 model year Chevrolet TrailBlazer and TrailBlazer EXT, GMC Envoy and Envoy XL, and Oldsmobile Bravada vehicles. Under certain conditions, water may seep into the windshield wiper module. If this were to happen, it could result in windshield wipers that will not turn on, cease operation while driving, fall to turn off, turn on by themselves, and/or continuous windshield washer pump operation. Improper operation of the windshield wiper system in a severe weather situation could reduce the driver's visibility, resulting in a possible vehicle crash without prior warning.

What Will Be Done: Your GM dealer will inspect and seal the windshield wiper motor. In some cases, the windshield wiper module may require replacement. This service will be performed for you at no charge.

How Long Will The Repair Take? This inspection will take approximately 15 minutes. If the motor requires sealing or replacement, an additional 15 minutes will be required. However, due to service scheduling requirements, your dealer may need your vehicle for a longer period of time.

Contacting Your Dealer: To limit any possible inconvenience, we recommend that you contact your dealer as soon as possible to schedule an appointment for this repair. By scheduling an appointment, your dealer can ensure that the necessary parts will be available on your scheduled appointment date. Should your dealer be unable to schedule a service date within a reasonable time, you should contact the appropriate Customer Assistance Center at the listed number below.
