Webb Wheel Products, Inc. - 2310 Industrial Drive, E.W. - Columbus, Alabama 35088

Dear Valued Customer:

The National Highway Traffic Safety Administration (NHTSA) has approved a voluntary recall of our Platinum Series Brake Drums. Records from your OEM supplier indicate that your company purchased Platinum drums during the time period defined. We would appreciate your assistance in implementing this recall. Enclosed are the following documents:

- Recall Notice
- Vehicle Inspection Procedure
- Reimbursement for Inspecting
- Reimbursement for Removing and Replacing

Brake drum included in this recall were produced between January 2001 to September 2002 of the following part numbers:

- 60528B
- 60545B
- 60672B
- 60864B
- 60875B
- 60893B
- 60895B

Please check your vehicles or inventory for any affected drums. If you have drums in the suspect date range, please follow the instructions in the enclosed Vehicle Inspection Procedure. In the event no affected drums are found, please respond to that effect to aid us in tracking progress.

The safety and integrity of our product is important to us. That is why we are issuing this voluntary recall of our Platinum Series Brake Drums. If you have any questions or need additional information, please call us at 1-800-633-3256.

Sincerely,

Kent Finkbiner  
Director of Marketing and OEM Sales

**SAFETY RECALL NOTICE TO VEHICLE OWNERS  
JANUARY 2004**

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act:

**Reasons for this recall:**

Webb Wheel Products, Inc., has decided that a defect which relates to motor vehicle safety exists in its "Platinum Series" brake drums. This decision was based on a higher than expected warranty return rate suggesting the potential for increased brake drum failure with these drums.

**The consequences of this can cause:**

1. Premature cracking of the braking surface resulting in the following:
  - a. Reduction or complete loss of braking on that wheel end.
  - b. Loss of brake drum pieces resulting in further damage.
2. Excessive runout of the braking surface causing own rollover resulting in the loss of braking on that wheel end.

**"Platinum Series" brake drum cast date codes covered in this recall:**

Cast date codes from 017-01 to 273-02 (Julian style date) are covered in this recall. Reference Figures 1 & 2 for cast date location.

Kent Finkbner

**What you should do:**

You should inspect your vehicles and inventory for "Platinum Series" brake drums with suspect cast date codes as described above. Drums found with cast date codes covered in this recall should be returned to Webb immediately on a Return Goods Order. For return instructions call:

Christy Rusk

[crusk@webbwheel.com](mailto:crusk@webbwheel.com)

**What we will do:**

1. Webb Wheel will supply inspection instructions (See inspection procedure).
2. Webb Wheel will pay for inspection of the vehicles. We will pay .15 hours, at your shop rate, per drum for the inspection.
3. Webb Wheel will pay for the removal of the "Platinum Series" drums. We will pay .25 hours, at your shop rate, per drum for removal. This includes removal of the disc wheel(s).
4. Webb Wheel will pay for reinstallation of the "Platinum Series" drums if they are acceptable for further use, or the installation of new replacement drums. We will pay .25 hours, at your shop rate, per drum for installation. This includes all maintenance required to reinstall the brake drum and disc wheel(s).
5. Where vehicles have "Platinum Series" drums that are not acceptable for reuse, we will pay a one time allowance of \$105.00 (freight allowance included) per brake drum for the purchase of a replacement brake drum.

We are sorry to cause you this inconvenience and appreciate your cooperation.

Sincerely,

John C. Hall  
V.P. Engineering

## VEHICLE INSPECTION PROCEDURE

The following procedure should be used to check vehicles that are equipped with "Platinum Series" brake drums:

### STEP 1. Check Vehicle.

Check the vehicle to verify that it has (1) or more "Platinum Series" brake drums installed. Locate and record the vehicle VIN number (see attached form(s) and photo). If the vehicle does not have any "Platinum Series" brake drums on it, the vehicle can be returned to service after placing a blue dot (sticker) on the VIN number plate.

### STEP 2. Check cast date code.

If the vehicle contains (1) or more "Platinum Series" brake drums, check the cast date code on each drum to determine if it is one of the cast date codes covered in this recall.

#### "Platinum Series" brake drum cast date codes covered in this recall:

Cast date codes from 017-01 to 273-02 (Julian style date) are covered in this recall. Reference Figures 1 & 2 for cast date location.

If the "Platinum Series" brake drum is not one of the cast date codes covered in this recall, then the vehicle can be returned to service after placing a blue dot (sticker) on the VIN number plate.

If the "Platinum Series" brake drum is one of the cast date codes covered in this recall, then STEP 3.

**STEP 3. If the vehicle contains (1) or more "Platinum Series" brake drums, remove and check each drum as follows:**

**Clean and inspect each "Platinum Series" brake drum . To be suitable for further service, the brake drum should pass the following checks.**

- a. The brake surface should be free of excessive heat checks (medium & heavy heat checks) (see page 3).
- b. The brake surfaces should be free of cracks (see page 3).

**If the brake drum(s) is (are) free of excessive heat checks or cracks, the vehicle can be returned to service after placing a blue dot (sticker) on the VIN number plate.**

**If any of the above conditions are not met, the brake drum should be replaced before returning the vehicle to service after placing a blue dot (sticker) on the VIN number plate. Failure to replace the brake drum will result in an unreliable braking system. Do not turn or resurface the braking surface. Adhere to all proper maintenance practices and procedures during the inspection.**
